

■ USA / Canada – Cross-Border Rail Moves to Port of Montreal

April 27, 2017

Dear Customer,

We provide an update to our April 19, 2017 [CustomerInfo](#) on the same subject.

To improve operational handling, the Canadian Pacific Railroad will change the Port of Exit for rail cargo originating from **Minneapolis, MN** and **Chicago, IL** destined to the Port of Montreal in May 2017.

The new border crossing used will be **BUFFALO-NIAGARA FALLS, NY (Code 0901)** for US Export Customs filings.

This change will be effective by service and vessel from these first sailings:

Service / Vessel:

- **AT1: MSC Sandra, Voyage Schedule 740E19**
Minneapolis Ramp Cut-Off May 9, 2017
Chicago Ramp Cut-Off May 10, 2017
- **AT2: Quebec Express, Voyage Schedule 18E20**
Rail Cut-Offs to be checked online
- **MCA: Genoa Express, Voyage Schedule 13E20**
Rail Cut-Offs to be checked online

All AES / ITN's and IE Bonds need to reflect the new border crossing for all cargo in-gating for the above vessels. The correct port code is required to facilitate the US Customs Export reporting process.

For further information, please contact your local Hapag-Lloyd office.

Kind Regards,

Hapag-Lloyd (America), LLC
