

1

I create my account on TK'Blue web site

Tutorial :

<https://vimeo.com/87778718>

- I am a carrier : www.labellisation.tkblueagency.eu
- I am a freight forwarder: www.aggregation.tkblueagency.eu
- I confirm my registration on my email account

2

I calculate my TK'Blue Index

Tutorial :

<https://vimeo.com/88330119>

One or more owned fleet(s)

- One declaration by type of vehicle and type of energy (diesel, electricity, hybrid NGV/LNG)

One or more managed fleet(s)

- To declare the use of a fleet of one or more subcontractor(s) or a combination with one or more owned fleet(s)
- Subcontractor(s) have to calculate their TK'Blue Index(es)

3

I transmit my CO₂ information

Tutorial :

<https://vimeo.com/89506898>

By calculating my CO₂ index:

- | | |
|----------|---|
| Level 1/ | national average value: one declaration by type of vehicle |
| Level 2/ | one average value for all the TK'Blue fleet declared |
| Level 3/ | one average value per type of vehicle for the TK'Blue fleet declared |

By completing the flows uploaded by my clients:

- | | |
|----------|---------------------------------------|
| Level 4/ | actual emissions of one flow (rarely) |
|----------|---------------------------------------|

4

I combining my CO₂ index with my TK'Blue fleet

Tutorial :

<https://vimeo.com/89520135>

- Combining one or more indexes CO₂ with related TK'Blue fleet(s) enables simple aggregation of CO₂ information to be reported to your clients and allows precise calculation of the CO₂ emissions. It leads to measuring the environmental footprint and enables to promote transparently your eco-responsible efforts.

5

I upload my supporting documents

Justification of the TK'Blue declaration:

- Necessary for obtaining a level 3 TK'Blue Index.

Social, fiscal and administrative documents:

- For sharing your social, fiscal and administrative accreditations with your clients in just a few clicks
