

INET TRANSPORT MANAGEMENT Carrier User MANUAL

- log in
- loading list
 - acceptance of load
 - status collected
- quote request
- daily operation
 - truck details

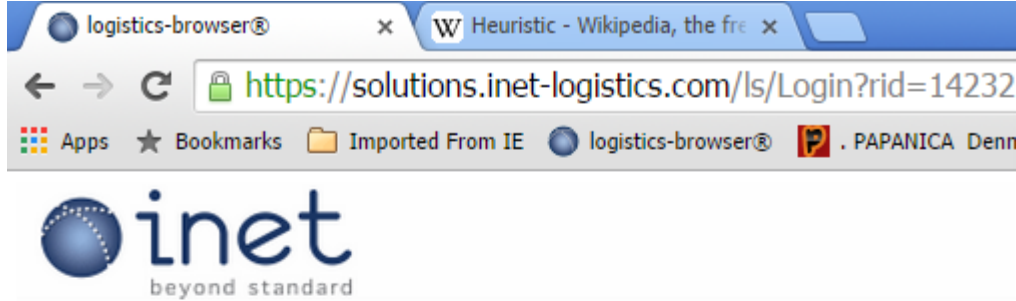

I-NET's link: <https://solutions.inet-logistics.com/ls/Login?Lang=EN>

- Before logging into the I-NET system you have to receive access from the administrator or LCC management.
- It is sent via email in the following form:

Username: xx_xxxxx(created by LCC)

Password: xxxxxx

Using the access code you can log into your account:

Enter Username and Password

You can change the password after your first entry.

Inet in different languages, via links:

1. EN - <https://solutions.inet-logistics.com/ls/Login?Lang=EN>
2. DE - <https://solutions.inet-logistics.com/ls/Login?Lang=DE>
3. ES - <https://solutions.inet-logistics.com/ls/Login?Lang=ES>

INET currently in 17 languages, you can always check if the INET is in your own language by only changing country short code, eg. EN – for English

After logging into your account, your system immediately prompts for password change.

You can create this password already according to your preference . Please apply these minimum requirements only:

logistics-browser® - Windows Internet Explorer

Login

Customers & Partners

Change password:

Enter your new password:

Confirm new password:

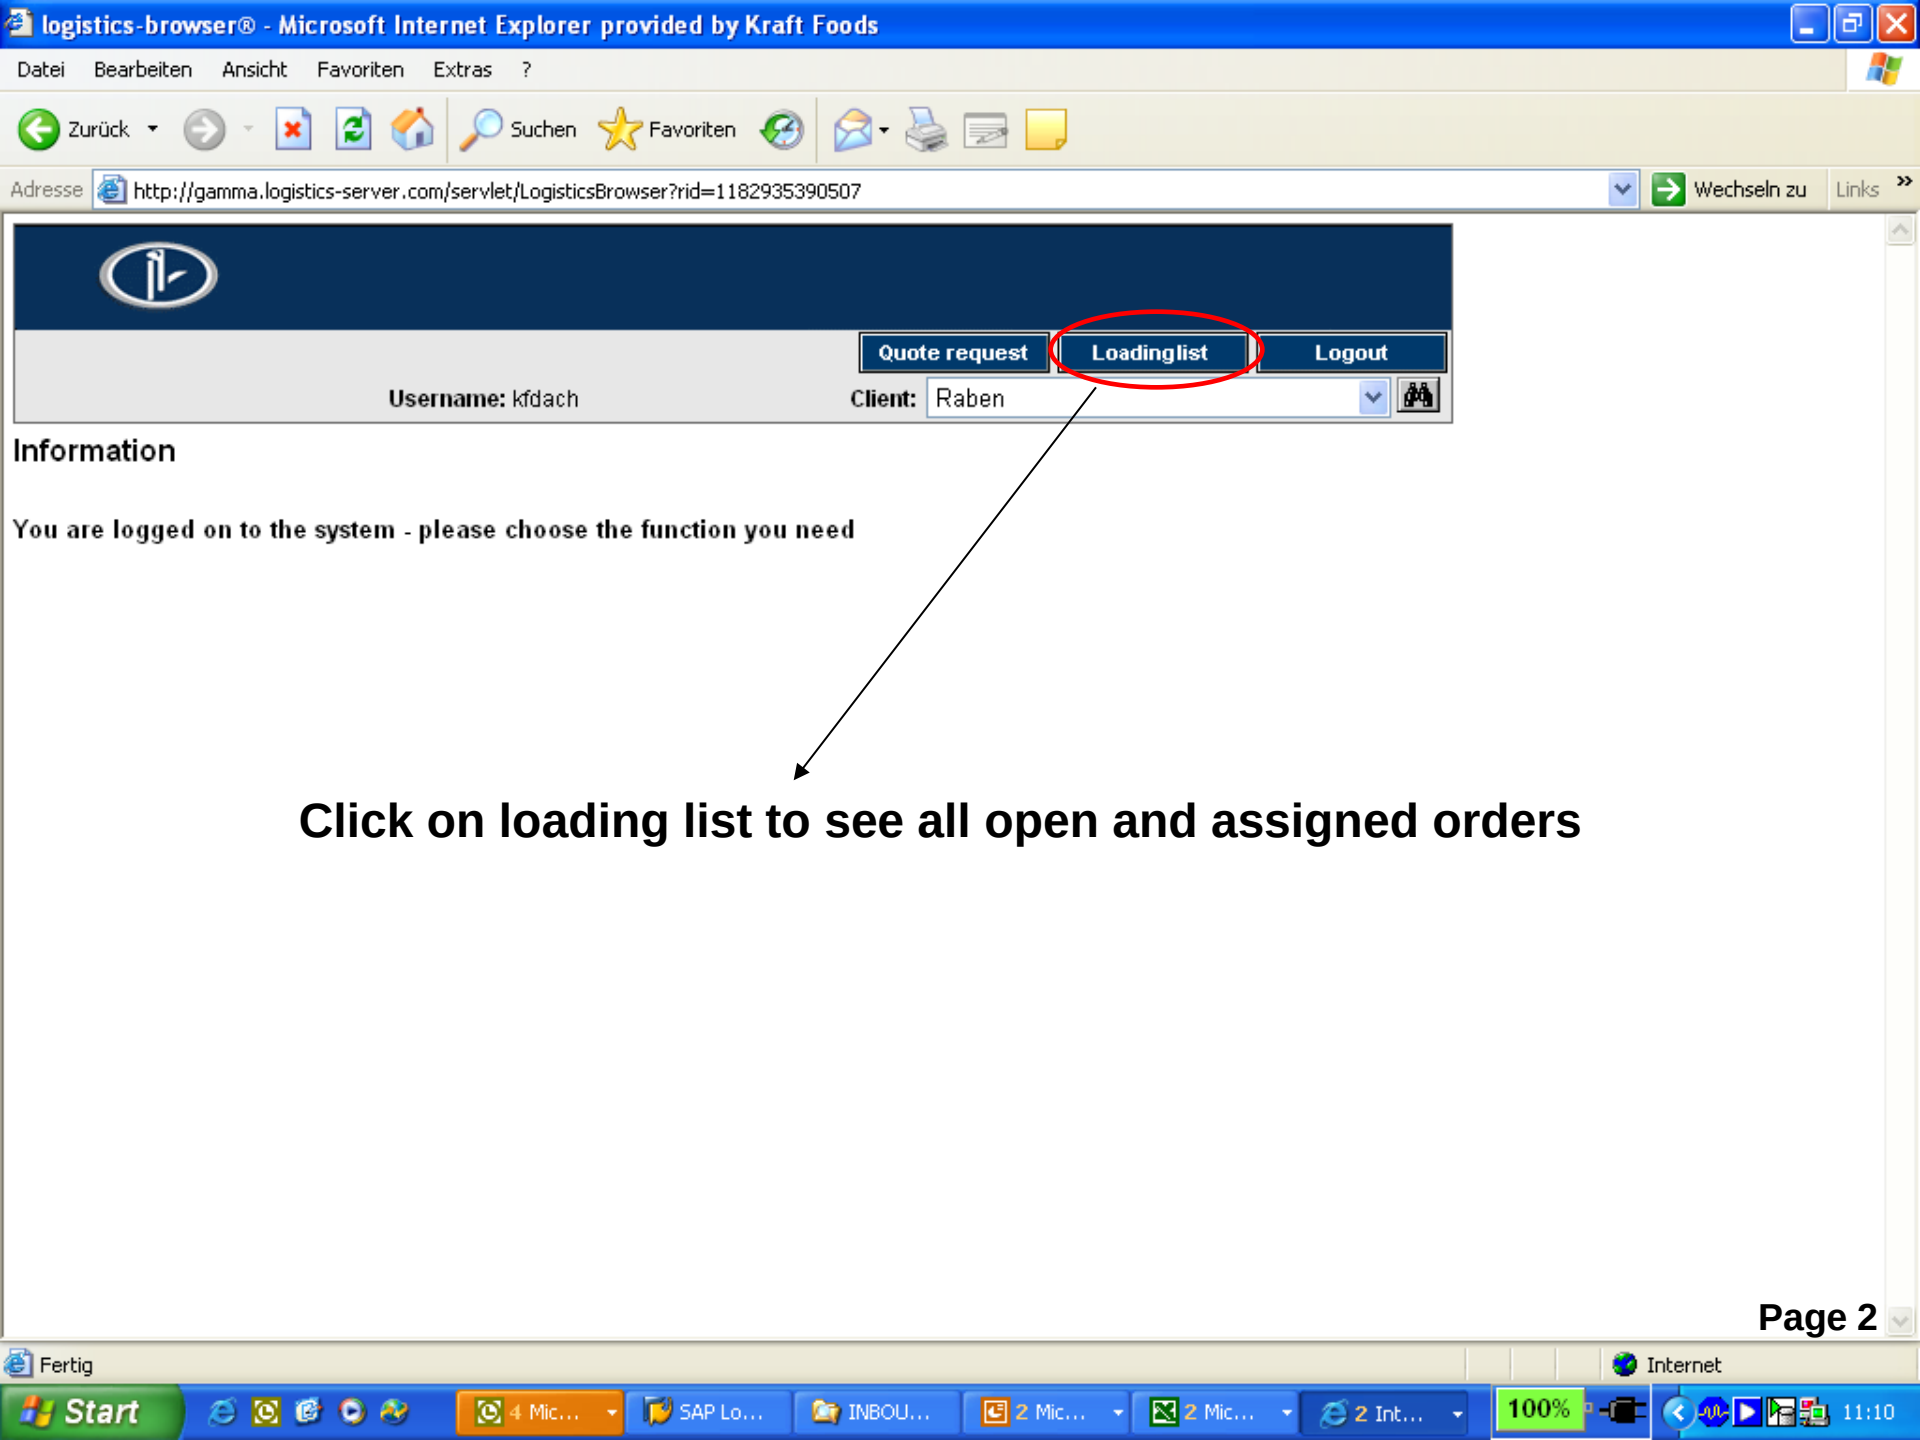

Your password does not meet the password policy. Please use characters, digits and at least one special character (e.g. !@#\$%^&*~_|~-'(){}~;<>?.,). The minimum password length is 8 characters.

Start

password requirements:

- Alphanumeric characters encompass numbers **0 to 9**, letters **A to Z** and letters a to z, a total of 62 possible alphanumeric characters.
- In addition, the password must contain at least **one special character** (i.e. []@#\$\$%^&*()_+|~-
=\'\{}:~;"`<>?,./) and
- Must be **at least eight** characters long.
- Moreover, the password must be changed every 30 days and may only be reused after ten further password changes. After ten failed attempts to login the account will be blocked. Accounts that are not used for 56 days will also be blocked.

Load overview

T&T Status	Name	Client	Load	Service	Branch/Depot	Date	Transport
released	PL-DE	Scheduling Kraft Dach	<u>10301</u>	Co-loading	Kraft Food Cent	28.06.2007	1

Track and Trace shows status of transport order

Where T&T shows status „released“ you must click here to confirm or refuse the load

PLEASE NOTE: You have only a limited time to confirm acceptance of loads – Failure to react will risk your normal workload being offered to other carriers via Spot Marking (See page 10)

Loading list shows released and confirmed transports

This button will show all assigned and confirmed transports

„Filter“ used to search for specific transport orders

Note: Whenever you enter Loading list this view is always the default setting view – to access assigned loads you must click on the center filter button (with Green Tick) or to find specific orders click on the right filter button.

Click on „Quote request“ list to see Spot Market orders you have been invited to quote for

Explanation:

Spot Market are transport requests where Mondelez International orders exceed the normal route carrier capacity and Mondelez International requires additional carriers to complete the workload on a specific route.

You will be invited by email to quote for these orders
